COMMUNICATION IN RESPONSE TO NOTICE OF DEFECTIVE RESPONSE

MS Missing Parts
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

This Communication is being filed in response to the Notice of Defective Response mailed August 2, 2005, a copy of which is enclosed. The Notice indicates that Applicants failed to satisfy all of the requirements set out in a July 13, 2005 Notification of Missing Requirements. Specifically, the Notice indicates that the computer readable form sequence listing and accompanying statement has not been submitted.

Applicants contend that no Notification of Missing Requirements was issued by the United States Patent and Trademark Office on July 13, 2005. Enclosed is a printout from the Patent Application Retrieval System for the subject application. No Notification of Missing Requirements is listed in the file history.

However, Applicants did receive a Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures, issued by the U.S. Patent and Trademark Office on July 13, 2005. A response to this Notice to Comply is due

Docket No.: 04393/0202300-US0

September 13, 2005, and Applicants filed response to the Notice to Comply on August 2, 2005. A copy of the return receipt postcard as stamped by the U.S. Patent and Trademark Office on August 2, 2005 is enclosed, evidencing the receipt of a Response, a computer readable form sequence listing on diskette, a paper copy of the sequence listing, Part 2 copy of the Notice to Comply, and an Express Mail Certificate. Applicants contend that the sequence listing requirements set out both in the July 13, 2005 Notice to Comply and the August 2, 2005 Notice of Defective Response were satisfied by Applicants' August 2, 2005 submission. Accordingly, it is respectfully requested that the Notice of Defective Response be withdrawn and removed from the record of the present application as being both (a) premature and (b) improper.

Confirmation of compliance of this application with all formal requirements is respectfully requested.

Dated: August 17, 2005

Respectfully submitted,

By

- This application clearly fails to comply with the requirements of 37 CFR. 1.821-1.825. Applicant's attention is directed to the final rulemaking notice published at 55 FR 18230 (May 1, 1990), and 1114 OG 29 (May 15, 1990). If the effective filing date is on or after July 1, 1998, see the final rulemaking notice published at 63 FR 29620 (June 1, 1998) and 1211 OG 82 (June 23, 1998). Applicant must provide an initial computer readable form (CRF) copy of the "Sequence Listing", an initial paper or compact disc copy of the "Sequence Listing", as well as an amendment directing its entry into the application. Applicant must also provide a statement that the content of the sequence listing information recorded in computer readable form is identical to the written (on paper or compact disc) sequence listing and, where applicable, includes no new matter, as required by 37 CFR 1.821(e), 1.821(f), 1.821(g), 1.825(b), or 1.825(d). If applicant desires the sequence listing in the instant application to be identical with that of another application on file in the U.S. Patent and Trademark Office, such request in accordance with 37 CFR 1.821(e) may be submitted in lieu of a new CRF.

- A copy of the "Sequence Listing" in computer readable form has not been submitted as required by 37 CFR 1.821(e). If the effective filing date is on or after September 8, 2000, see the final rulemaking notice published in the Federal Register at 65 FR 54604 (September 8, 2000) and 1238 OG 145 (September 19, 2000). Applicant must provide an initial computer readable form (CRF) copy of the "Sequence Listing" and a statement that the content of the sequence listing information recorded in computer readable form is identical to the written (on paper or compact disc) sequence listing and, where applicable, includes no new matter, as required by 37 CFR 1.821(e), 1.821(f), 1.821(g), 1.825(b), or 1.825(d). If applicant desires the sequence listing in the instant application to be identical with that of another application on file in the U.S. Patent and Trademark Office, such request in accordance with 37 CFR 1.821(e) may be submitted in lieu of a new CRF.

Applicant is required to complete the response within a time limit of ONE MONTH from the date of this Notification or within the time remaining in the response set forth in the Notification of Missing Requirements, whichever is the longer. No extension of this time limit may be granted under 37 CFR 1.136, but the period for response set in the Notification of Missing Requirements may be extended under 37 CFR 1.136(a).

Applicant is cautioned that correction of the above items may cause the specification and drawings page count to exceed 100 pages. If the specification and drawings exceed 100 pages, applicant will need to submit the required application size fee.
